

HOUSING CORPORATION TIWOS

Tilburg

Housing corporation Tiwos from Tilburg has been seriously renovated lately. And the result is amazing!

The project was designed by *Burobas*: *"The building on the Stationsstraat in Tilburg was completely redone with the aim to make 'real contact'. Together, with tenants from Tiwos and with social partners. The renovation is an opportunity to make big step towards a more sustainable future."*

Hutten contributed by providing some of the furniture. Among other things our *Bilbao* chair was chosen, which happens to be a design by Burobas as well.

...An atmospheric meetingplace...
