

STACKABLE

ATOMIC
Wout Speyers

Hutten added another *Wout Speyers* design to the collection; the *Atomic*. The designer of amongst others the *Crush* chair, chose a playful design, that is available in many different versions; unupholstered, but also half-upholstered and full-front upholstered. Various combinations can also be made within the choice of wood and the color of the frame.

Do you have any questions about the endless possibilities?

Reach out to us via sales@hutten.com

*...Yet another design from
Wout Speyers...*
